Target Species: Monogastric – 52wks/yr requirement

.....and your point is?

- 8 member states
- Currently recovering 3.5million Tonnes of Former Foodstuff
- Equates to 10kg per capita

TARGET

- 5million tonnes in EU28
-on current supply chain activities

EFFPA Estimations

.....and your point is?

- 5 million tonnes of processed former foodstuffs (EU-28)
- 5.25 million wheat tonnes equivalent
- Equates to 40% of the entire UK wheat crop (>0.5m hectares)
- Ensuring wheat into primary food production not feed!!!
- Now that is a target worth pursuing!!
