Making progress towards defining food waste

FUSIONS has been making progress on defining food waste and proposing system boundaries for the food chain. A key challenge in such work is establishing the start and end point of the food chain. The FUSIONS team will be consulting with stakeholders in the upcoming months on a proposed definition.

Upcoming FUSIONS Regional Meetings

FUSIONS regional meetings will be held in Germany, Italy, Finland and France in the upcoming months. At these meetings, the definition of food waste, policies impacting food waste prevention, and social innovation initiatives for reducing food waste will be discussed. Key note speakers will provide inspiration and insight on food waste prevention initiatives and best practices.

FUSIONS will test new social innovation solutions to prevent food waste.

Discuss your social innovation ideas with your national FUSIONS partner. **Submit your ideas to our survey.** Around four leading ideas will be tested via feasibility study and their impact evaluated!

Ted Talks on Food Waste prevention and education

Multiple TED talks have addressed the issue of food waste, including from FUSIONS partners Tristram Stuart and Selina Juul. TED, a non-profit organisation devoted to 'Ideas Worth Spreading,' regularly holds conferences and events worldwide. These TED talks highlight the realities of the food waste problem and provide hope for the spread of existing solutions and the development of new initiatives.
