New definitional framework of food waste proposed by European FUSIONS project

The FUSIONS framework for defining food waste was published on 3 July 2014. The definition aims to support the streamlining of food waste quantification and data gathering across Europe. The framework also defined all resource flows in the food supply chain.

Upcoming EPM meeting

The 2nd European FUSIONS Platform Meeting will take place on October 30-31 in Brussels at the Hotel Bloom. All delegates must register for the Meeting whether presenting or attending. Meeting registration is free of charge. To register and for more information, please visit: <http://www.eu-fusions.org/epr>

A look back: FUSIONS progress and achievements halfway through the project

Two years into the project, FUSIONS is at its halfway point, and considerable progress has been made in exploring avenues for reducing food waste via quantification, policy, stakeholder engagement, social innovation and awareness-raising.

Films about FUSIONS Feasibility studies available soon

The FUSIONS Feasibility studies are in full swing! Keep an eye out for a series of short videos about each one, coming soon on FUSIONS website.

Ugly fruit in stores near you!

Ugly fruit has taken Europe by storm. Since the EU revised certain rules regarding the appearance of fruits and vegetables in 2008, a movement towards consuming “ugly” fruits and vegetables has been gathering momentum.
